## Stages of NPI Partnership Development

Engaging Community

 Sharing information with community members regarding their situation and gaining a bettter understanding of their health and social service needs and priorities

Developing a Strategy

· Establishing NPI goals and identifying potential partners in the region to approach

Knowledge Sharing

- · Introducing the CHSSN-NPI Initiative to selected partners
- · Sharing knowledge of the community and its situation
- Learning about priorities of our partners institutions/organizations

Partnership Planning

• Identifing activities, clarify roles and responsibilities, possible action plan

Joint Action

Implementing activities/action plan together

Accountablity

- · Reviewing results of joint actions and accountablity back to each other
- · Revealing mutual benefits to the partnership

Integration

 Integrating the NPI into regular and ongoing planning and activities of the partnering institution/organization and vice versa

Partnership Expansion

- · Expanding current activities or entry into a new domain of community needs
- Planning to sustain the partnership into the future
